How to Learn

- The course curriculum enables students to learn the technologies gradually from basics to the advanced.
- During the course, students attend the regular theory classes for 3 hours and lab practice & assignments for another 3 hours every day.

- For accessing the students' understanding of the lessons taught, they are given the online surprise test which enables them to be prepared for final exam.

Facilities

- IMCEITS has a dedicated Online Data Centre with 8 High end servers. It includes server for Database (Oracle and SQL server), server for Telemedicine solution and Moodle server for automating process of education.
- It has 185 computers with Internet facility for each participant in the training program.
- Library at the centre has over 7000 books relating to advanced Information Technology.
- IMCEITS is a fully air-conditioned facility with 4 computing labs, 2 Class rooms and Library with reading room facility.
- Student can access training materials, lecture slides, lab assignments and upload teacher's review on server. All the exams are conducted through this server which helps for quick result processing.
